The Commission may vote on this resolution at that time, or it may postpone a vote until later. When the Commission votes on L-302, it may adopt all or part of it as written, amend or modify it, or set it aside and prepare a different resolution.

The draft resolution will be circulated to the parties submitting the Public Records Act

requests that are the subject of the draft resolution, pursuant to Public Utilities Code Section 311(g) and Rule 77.7 of the Commission's Rules of Practice and Procedure. An original and 2 copies of comments must be received by the Legal Division no later than November 25, 2001. Comments shall focus on factual, legal or technical error in the draft resolution. Public necessity requires that the 30-day comment period of Public Utilities Code Section 311(g) be reduced so that the Commission may collect the revenues as set forth in this resolution as soon as possible. The Commission concludes that a reduction in the 30-day review period by 2 days will not compromise the public interest or any party's rights. Accordingly we reduce the comment period for this resolution from 30 days to 28 days. Parties who wish to file comments on this resolution may do so no later than November 19, 2002.

11/20/02	A01-03-008	Pacific Gas and Electric Company, for Commission Approval for Irrevocable Lease for Metromedia Fiber Network Services, Inc. to Use Fiber Optic Cable on certain PG&E Transmission Facilities under terms of an Optical Fiber Installation and IRU Agreement.
----------	------------	--

Summary: On November 15, 2002, Edward W. O'Neill, attorney for Metromedia Fiber Network Services (MFNS), met with Kevin Coughlan, advisor to Cmmr. Peevey, in San Francisco. Also present were Mark Fogelman, attorney, John Clarke, Manager of Regulatory Relations, and Janice Berman, Director of Operations Revenue Requirements, for Pacific Gas and Electric Company (PG&E). O'Neill stated that the proposed decision (PD) misconstrues the nature and scope of the approval sought in the pending application and incorrectly assumes that MFNS intends to install additional facilities on PG&E's poles and towers for which MFNS does not currently have license authority or authority under the California Environmental Quality Act (CEQA). O'Neill explained that it only seeks approval under section 851 for use of facilities installed under its lease agreement with PG&E for which it already has authority under section 1001 and CEQA. Neill noted that the only specific facilities that are subject to the

license agreement for which approval has been requested in the application are the facilities associated with one fiber optic cable crossing San Francisco Bay. O'Neill stated that the PD misconstrues the Commission's policy and practice with respect to licensing and environmental review and the nature and scope of the prohibition against 'piecemealing' projects under CEQA.

Summary: On November 15, 2002, John Clarke, Manager of Regulatory Relations of Pacific Gas and Electric Company (PG&E), met with Kevin Coughlan, advisor to Cmmr. Peevey, in San Francisco. Also present were Mark Fogelman of Steefel, Levitt & Weiss, attorney, and Janice Berman, Director of Operations Revenue Requirements, for Pacific Gas and Electric Company (PG&E) and Edward W. O'Neill, attorney for Metromedia Fiber Network Services (MFNS). Clarke stated that the proposed decision (PD) is erroneous in stating that not enough information was provided by PG&E to meet its burden to establish that no further analysis is required under the California Environmental Quality Act (CEQA). Fogelman asserted that the application is not significantly different from similar applications the Commission has recently approved. Berman stated that the PD erroneously interprets a utility's CEQA exemption, and that the referenced exemption does not require that the facilities be solely for the utility's own use. Clarke stated that the PD contravenes that Commission's historical environmental-advocacy endeavor to encourage dual-use facilities and instead encourages fiber network companies to pursue more environmentally disturbing green-field construction.
